OUR STORY

Established in 2014, algor is a dynamic and innovative MEP (Mechanical, Electrical, and Plumbing) company. With our headquarters strategically located in Dubai, we are at the heart of the bustling construction industry in the Middle East. Additionally, we have expanded our presence with a subsidiary office in India, enabling us to efficiently cater to a wider geographical area and diverse client needs. With a commitment to excellence and a focus on delivering top-notch services, we have become a trusted name in the industry, serving a diverse range of clients across various sectors

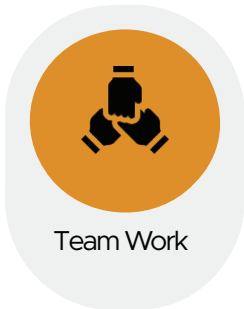

Our Journey:

At algor, our journey began with a vision to redefine the standards of MEP services in the region. Over the years, we have grown and evolved, building a strong foundation of expertise and reliability. Our commitment to quality and client satisfaction has been the driving force behind our success in the region. Over the years, we have grown and evolved, building a strong foundation of expertise and reliability. Our commitment to quality and client satisfaction has been the driving force behind our success

CORE VALUES

At the core of our operations are values such as integrity, professionalism, and reliability. We prioritize open communication and collaboration, fostering strong partnerships with clients, suppliers, and industry stakeholders. This approach enables us to consistently deliver projects on time, within budget, and to the highest standards.

SUSTAINABILITY INITIATIVES

Implement energy-efficient practices

Our office premises are equipped with energy-efficient solutions to reduce our energy consumption. We are committed to transitioning 50% of our energy consumption to renewable sources by the end of 2024.

Reduce waste and recycle

We are committed to reducing wastage at our project sites and office premises by taking constructive steps. Our employees practice responsible recycling and waste management practices, and we have a policy of avoiding single-use plastic for our operational activities.

Engage and educate Our employees

We encourage our employees to get involved in implementing green initiatives, such as conserving resources, promoting recycling, and reducing paper usage.

Engage with stakeholders

As a service provider, we recognize our influential role in guiding our customers towards the most energy efficient solutions. We consider this as our core responsibility, and work as advocates to ensure that our customers receive the most sustainable solutions. We achieve this by conducting an in-depth life-cycle cost analysis, which helps us identify the most eco-friendly and cost-effective solutions for our customers

VISION & MISSION

VISION

To be the preferred choice of our clients, a reliable partner for our customers, and a source of pride for our employees through embracing new opportunities with an open mind and delivering exceptional value to all our stakeholders.

MISSION

Our company is committed to delivering exceptional services & high-quality, cost-effective projects on schedule. We achieve this by employing & supporting motivated, flexible, & focused teams. We value the importance of our relationships & strive to remain fair and true in our dealings with all employees, clients, vendors, and partners. Our clients rely on our dependability, drive, & integrity. We take great pride in our accomplishments and continuously build on them.
