## 2. About the Company, Our Vision, Our Mission

### About us

As a humble venture by small group of HVAC professionals; **algor electromechanical l.l.c** was established in early summer 2014, in Dubai, United Arab Emirates. Our aim was to apply the experience we gained from the HVAC projects we were a part of; to deliver the optimum solution to our customers.

We are proud that in such a short span of time, we were able to work with many of industry renowned organizations in United Arab Emirates. Our prompt deliveries and "think together" approach to solve the issues of our customers has helped us to establish our name in the HVAC service market in Dubai.

We thank our customers and we try every day to improve and deliver the promise to meet our customers expectations. At **algor** we understand that "comfort is multidimensional".

### What is Comfort?

Even though so desirable, comfort can unfortunately be a vague concept. While discomfort is about approaching extremes, comfort is primarily about determining ranges.

**algor** is chill or coldness in Latin. In **algor** we understand that cooling is only one of the many aspects of human comfort. We try to balance the equations of comfort to provide our customers most economical, reliable and optimized solutions for their comfort requirements.

Enriched by the technical know-how of the ground staff and managed by a group of experienced HVAC professionals, **algor** can be your partner in your quest for comfort. **algor** is a solution provider for all your HVAC needs.

### Our Vision

To be a brand of trust & reliability in the industry, by providing solutions to our customers, based on their specific requirements.

### Our Mission

To put a smile on our customer's face, by bringing comfort to their Indoor environment.

### **3. Our Services**

## 4. HSE Policy

Safety is the responsibility of every individual. It's our company policy to strictly adhere to safety culture that includes our employees, all stakeholders and member of public. Personnel working at site contribute to their safety as well as the safety of their co-workers. We **algor electromechanical l.l.c**, have set some safety regulations for our team, which will contribute to the safety of the site where they work. All our employees are strongly oriented and advised to be conscious of their health, safety and environmental issues while carrying out each activity.

Our Management is committed to this set of objectives, policies and targets to ensure the awareness of necessary HSE Standards among our employees by conducting regular training programs. We encourage and ensure the benchmarking on HSE matters and will be proactive towards project and safety standards.

At any point an employee finds that the safety requirements are not meeting the minimum safety regulations at a work site, it is his responsibility to report to the management. Health & Safety regulations require regular improvements & amendments to achieve our goal of Safe & Healthy Workforce!

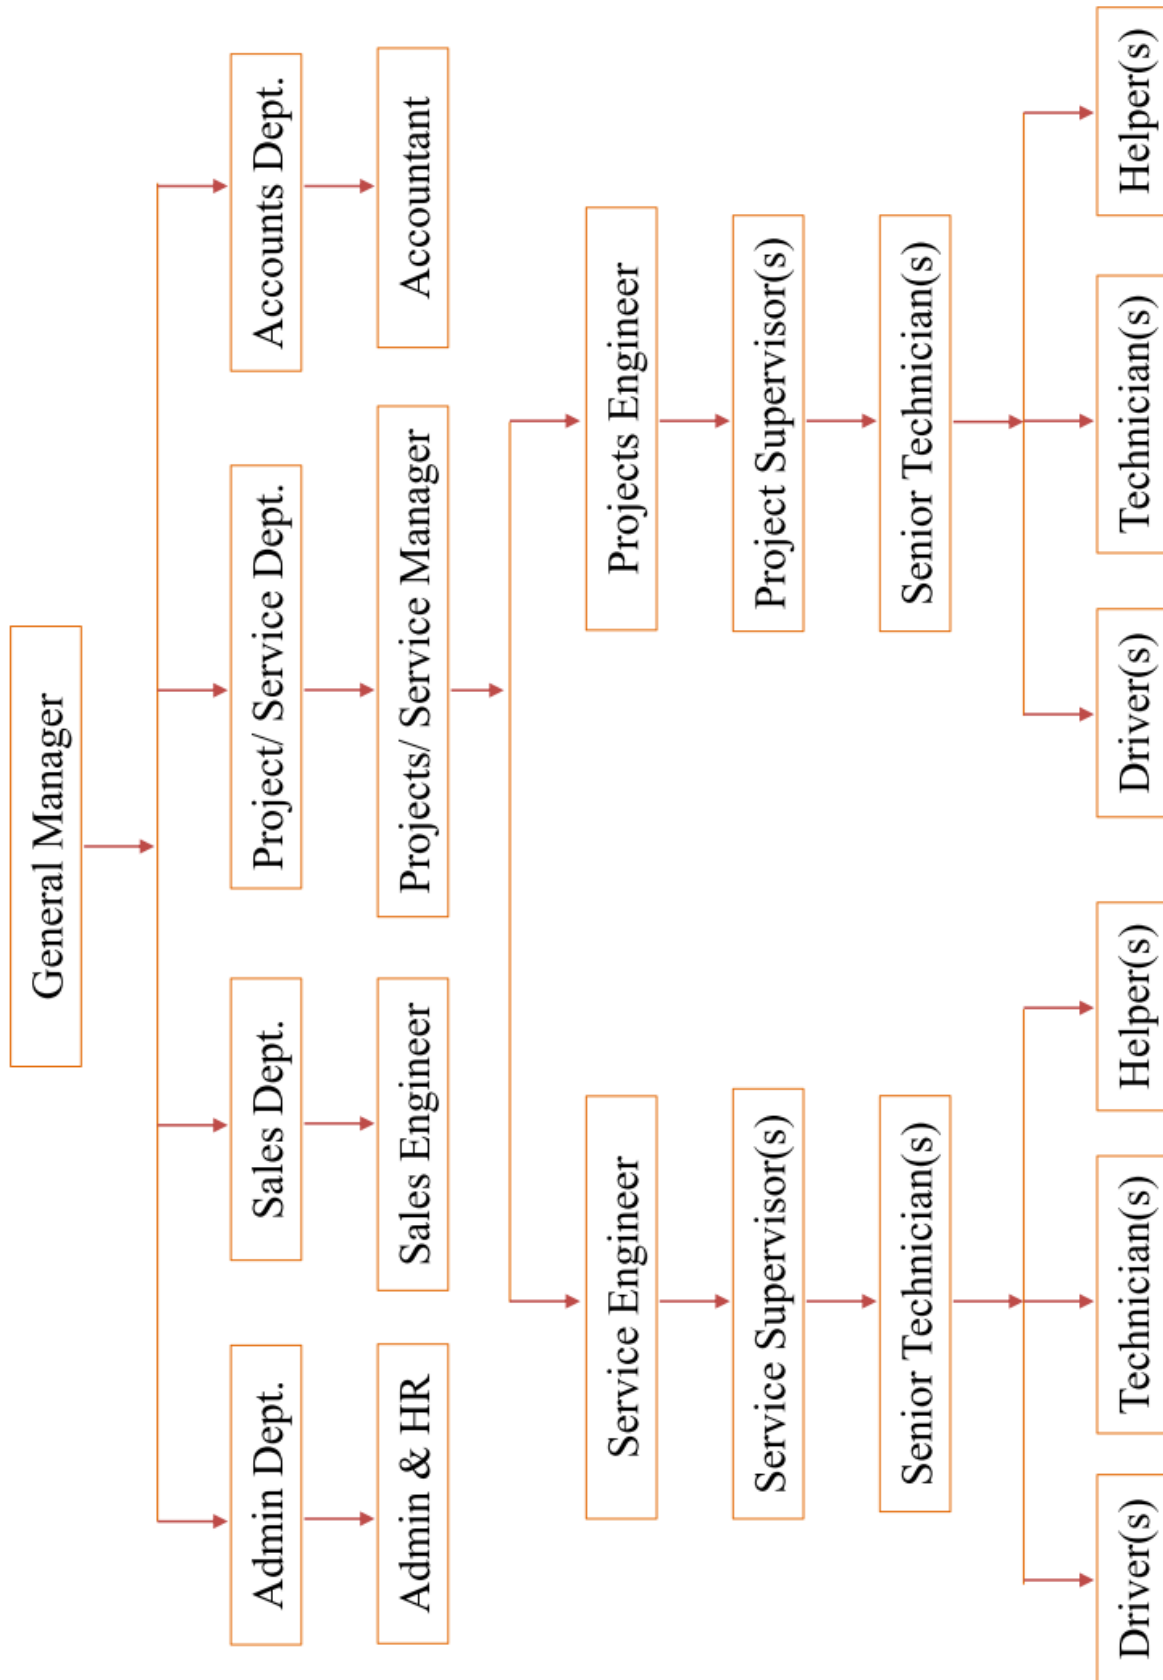

To remind our team at all times about the safety regulations and to represent the importance of safety in the organization, we call its safety drive "**The Orange Circle**"

The safety policy enforces the workforce to maintain minimum safety standards and any additional special safety equipment, as per the HSE policy of the project site, where they work.
